

Training Course in Repetitive Transcranial Magnetic Stimulation (rTMS)

In collaboration with the University of Toronto, the Temerty Centre for Therapeutic Brain Intervention is offering a **5-day technician certificate training program** in the clinical applications of rTMS for psychiatric disorders.

Participants will gain foundational knowledge on the use of rTMS for the treatment of major depression. As well, registrants will acquire the skills necessary to administer rTMS, through extensive hands-on practice.

This certificate program is affiliated with CAMH Stimulation Centre accreditation.

Event details

Dates: 9:00 a.m. to 5:00 p.m., TBD

Guest speakers: Prominent scientists in brain stimulation from the Centre of Addiction and Mental Health

Course directors: Dr. Daniel Blumberger, Chair and Director, Temerty Centre for Therapeutic Brain Intervention and Co-Chief General Adult Psychiatry

Location: Centre for Addiction and Mental Health, 1025 Queen Street West, Toronto, ON

Cost: \$3,490 CDN (includes food and refreshments)

Learning objectives

Due to the increased demand for the use of rTMS in the treatment of psychiatric disorders, we predict there will be a **sharp increase in the need to train technicians in using rTMS.**

Upon completion of the course, attendees will be able to:

- summarize evidence-based rTMS treatments for psychiatric disorders
- understand the methods and procedures
- manage and program equipment software
- approximate treatment spots
- gain extensive hands-on experience with rTMS
